BUSINESS MEN ARE MUCH ENCOURAGED

It Is Possible That Quarantines Will Be Raised Oct. 15.

THE SITUATION IS SATISFACTORY

The Country Parishes Will, to a Great Extent, Act Upon Advice of Authorities and Raise Restrictions Against New Orleans Very Soon.

New Orleans, Oct. 5.—Up to noon today there were nine new cases of yellow fever and two deaths.

New Orleans, La., Oct. 5—With only one death over night and a comparatively small number of new cases reported early in the day, the promise was today for some further improvement in the fever situation. There is every probability that the present week will show the lowest number of deaths since the fever started, making it plain that a considerable proportion of the cases which are reported in the official lists are diseases othe rthan yellow fever.

With the prospect that quarantines will be lifted generally during the present month, the railroads are making preparations for the resumption of full train service. Many trains were annulled when the quarantines were established, but it is believed now that a full service will be restored on all the lines by the end of the present month.

Business Men Encouraged.

To business men, the most encouraging feature of the yellow fever situation is the disposition that is being manifested by parishes and towns in Louisiana to raise their quarantines about Oct. 15, in harmony with the suggestion of Dr. White and President Souchon. If the rule is generally followed, New Orleans will recover more rapidly in a business way than in 1897 and 1898, when the mosquito theory being unknown, the outside country refused to remove restrictions until frost. Same Iberville, Terrebonne, Kentwood and Acadia have sent word that they will probably dispense with their quarantine about the time suggested, while Baton Rouge now has the matter under consideration. Health Officer Dupree and Surgeon Corput both having made it plain to the citizens that there will be practically no danger in a resumption of relations with this city.

The pace having been set, it is probable that many more parishes will follow suit and that by the time of the president's arrival practically all the bars will be down. There is great eagerness among country people to come here, and participate in the jubilee that will attend the president's visit.

Today was another day of gloomy weather with light showers, but the fever situation has lot whatever alarming features it may have possessed. For the fifth day there has not been a single case reported from the original infected region and for several days no deaths in the Emergency hospital, while the cases under treatment there have dropped to 88, and nearly all the patients are doing well.

University Opens Nov. 1.

The Louisiana state university, it is announced, will open on Nov. 1. The various departments of Tulane university will open about the same time. The public schools in many parts of Louisiana are already in operation.

Superintendent Easton of the New Orleans schools has issued an order to each of the 800 teachers employed to give brief talks daily to the children on the yellow fever theory. There are to be printed cards for each school teacher to study and later illustrated lectures for the little ones.

Will Banquet President.

One of the chief features of the president's reception here was to provide a banquet at which the representative citizens of Louisiana were to have gathered and the president afforded an opportunity to speak freely. Advices from Washington announce that the program arranged contemplates only a daylight visit, the president arriving at 9 in the forenoon and going aboard his cruiser at 6 in the evening. An effort will be made to persuade him to extend his stay in order that he may attend the banquet.

Cruiser Pennsylvania Selected.

Washington, Oct. 5.—The armored cruiser Pennsylvania has been tentatively selected to convey President Roosevelt from New Orleans to Norfolk on th return from his southern trip. Rear Admiral Brownson, commanding the armored cruiser division of the North Atlantic fleet, and Captain McLean, of the Pennsylvania, were at the navy department today and conferred with the officials regarding the arrangements for the voyage. From Norfolk the president will be conveyed to Washington by the Mayflower. Captain Winslow has arrived here from Newport and was at the navy department today.

Situation At Pensacola.

Pensacola, Fla., Oct. 5.—One case and one death at noon. Thirty-five left at noon for the detention camp, which opened today.

Cry of "Tainted Money" Comes from the Drones of Society.

Chicago, Oct. 5.—"I would rather be John D. Rockefeller today, divested of his wealth and with his lovable personality, than any of the crew, saints or sinners, who are attacking him.

The foregoing is a quotation from an interview published today from Dr. D. K. Parsons, a Chicago millionaire, nationally known as a philantropist.

"Tainted money," continued Mr. Parsons, "to the popular mind, excited just now by socialistic outcries, there is no wealth that is untainted. This cry of 'tainted money' is no jest. It is unfair and not American. It has become the rallying cry of the socialist, the drone and the discontented member of society who hates those whose talents or wealth exceed his own."

EIGHTEEN INJURED IN WRECK.

Train Leaves Track Upon a Curve and Coaches Turn Over.

Connellsville, Pa., Oct. 5.—Fifteen to eighteen people were injured, five of them seriously, in the wreck today of train No. 1, the Fairmont express on the Baltimore and Ohio railroad at Round Bottom, near Morgantown, W. Va.

Three coaches, including the baggage car, ladies' coach and a Pullman gage car, left the rails on a curve and tumbled over the bank to the edge of the Monongahela river.

Grant Burns, of Haslewood, Pa., conductor of the train, has a broken arm and is bruised and cut.

James D. Ellenberger, and son, C. W. Ellenberger, both of Dunbar, Pa., Baltimore and Ohio bridge carpenters, are among the most seriously injured.

Plotting to Overthrow Germans.

Berlin, Oct. 5.—The Colonial section of the foreign office first heard of the arrest of Andrew Dewet, near Vikbos, German Southwest Africa, on the charge of plotting with four other Boers to overthrow German rule in Southwest Africa, from South African papers of the latter part of August which reached Berlin last Monday, but were not opened until yesterday. The foreign office telegraphed to the governor of Southwest Africa for a report on the subject but considers that the incident probably has been much exaggerated as otherwise the governor would have regarded it as worth reporting.

Miss Roosevelt at Yokohama.

Yokohama, Oct. 5.—Miss Alice Roosevelt and her party arrived here today on the steamer L. Minnesota, from Shimonoseki. Miss Roosevelt was received by the American minister the American consul, the imperial master of the ceremonies and the governor, but declined any formalities. She will stay at a hotel here tonight, and tomorrow will go sightseeing into the interior until Oct. 12, when the party headed by E. H. Harriman and Miss Roosevelt's party will leave Yokohama for San Francisco on the steamer Siberia.

RUSSIA AND JAPAN ON FRIENDLY TERMS

Diplomatic Relations Are Resumed Between Ministers.

ARRANGING TO RATIFY TREATY

It Seems Certain that the Ratifications of the Peace Treaty Are To Be Exchanged in Washington—Conference Lasted Only a Few Minutes.

Washington, Oct. 5.—Diplomatic relations between Russia and Japan were resumed at the state department for a short time today while Baron Rosen, the Russian ambassador, and M. Takahira, the Japanese minister in the form of ratification of their respective countries.

The call was made by appointment at the request of M. Takahira, who desired to see the Russian form of ratification.

Accordingly, Secretary Root sent for Mr. Smith, chief of the diplomatic bureau of the state department, who brought to the diplomatic room a copy of a Russian extradition treaty which gave Mr. Takahira the information he desired.

The envoys remained for a few minutes in conversation with Secretary Root, and then left the department without further exchanges. They bowed pleasantly as they parted outside the diplomatic room.

It would seem certain from this that ratification of the peace treaty are to be exchanged at Washington.

As soon as the date for the exchange of these ratifications has been agreed upon, special plenary powers will be cabled to Baron Rosen and M. Takahira by their respective emperors.

The exact form which the powers shall take was discussed at today's conference, both envoys being anxious that there should be no difficulty on that point.

The form of the powers will necessarily be identical.

Accident Stops Airship.

Brockton Mass., Oct. 5.—Roy Knabenshue, the aeronaut, met with an accident to his airship today on the Brockton fair grounds, while trying to make an ascension. The young man was not injured. The ship had risen about 30 yards, when the motor missed a number of revolutions. This prevented steering and the great bag containing the gas struck a flag pole on one of the buildings, stopping the flight. Knabenshue shouted to his assistants on the ground and they tossed him ropes. He was able to descend in safety. The netting covering the ship was torn.

Portland, Ore., Has Big Fire.

Portland, Ore., Oct. 5.—Fire last night which did damage to the extent of $110,000, destroyed an entire block of wholesale houses in this city, bounded by Salmon, Taylor and Front streets and the Willamette river. The fire started in the basement of the New Era Paint and Oil company, from spontaneous combustion, it is thought, and rapidly spread to the adjoining structures of the block which were all frame buildings. The insurance equals about half the loss.

Rupture Between Foreign Countries.

Bucharest, Roumania, Oct 5.—As a sequel of the breaking off of diplomatic relations between Roumania and Greece, it was confidentially announced today that Roumania will denounce the commercial convention with Greece, withdraw the recognition hitherto accorded to the Greek communities, increase the tolls on Greeian vessels entering Roumanian ports and tax property held by Greeks in Roumania.

Printers' Union Fifty Years Old.

Nashville, Tenn., Oct. 5.—Nashville Typographical Union No. 20, celebrated its fiftieth anniversary last night at Glendale park, near this city with a dance and banquet. Among the speakers were John I. Cox, Major E. B. Stahlman, of the Nashville Banner and Major B. C. Kelly, who was on Forrest's staff.

LOST MONEY IN SPECULATION.

Largest Cotton Mill in South Carolina Effects Reorganization.

Union, S C, Oct 5.—A special meeting of the stockholders of the Union cotton Mill, Union, S. C., one of the largest in the state, was held for the purpose of effecting a reorganization. Stockholders were present from Baltimore, New York, and other eastern cities. Of the 7,580 shares, 6,614 were represented in person and by proxy.

The feature of the meeting, which lasted for two hours, was the submitting by expert accountants, who have been at work on the company's books for some time, of a statement of the mill's condition.

This report showed facilities of $2,700,000, and revealed the fact that the mill had been losing money for several years, only maintaining itself by speculation in cotton. Since Jan. 7, however, it appears that the mill has lost $500,000 by speculation. The report also showed that President Duncan was individually indebted to the mill for $481,000, and the Buffalo mills, with which he is connected, is indebted to it in the sum of $500,000.

RAISED SEEDLESS COTTON.

Several Acres of Peculiar Staple on Congressman Livingston's Farm.

Covington, Ga., Oct. 5.—W. B. Livingston, and one of the prosperous planters of West Newton, tells of a peculiar kind of cotton grown on his farm this year.

Mr. Livingston says he has several acres planted in cotton, which has produced a seedless variety of the staple. With the exception of the total absence of seed, the appearance of this patch of cotton is not unlike the rest of his crop. The yield is about the same per acre, and there is apparently no difference in the staple.

He planted his entire crop of cotton with the same variety of seed, fertilized and cultivated it all in the same manner.

New Bank for Atlanta.

Atlanta, Oct. 5.—By January 1 the new trust and banking company which is to occupy the ground floor of the new Chandler building, will be organized and ready for business. This new financial institution, which will be one of the largest of its kind in the south, will be known as the Central Bank and Trust comporation. The capital stock of the new concern will be $500,000 to start with, and the incorporators have the right to increase it to $2,000,000, which they feel sure their business will warrant at no distant date.

Militia Jeered by Texans.

Edna, Tex., Oct. 5.—There is little new in the situation regarding the chase after the negro Monk Gibson, charged with the murder of five members of the Cunditt family. There are still 200 men in the bottom, who have been searching for miles with no trace of the negro that has led anywhere. Four companies of militia are encamped here and they are being jeered by many of the younger element, while the older heads content themselves with criticisms of the governor and facetious remarks about "tin soldiers."

Desperado Shot by Posse.

Florence, Ala., Oct. 5.—John H. Denton was shot and fatally wounded at noon today in the river bottom opposite State Line island, by a posse which was attempting to arrest him. Denton has the reputation of being a desperate character, and the officers attempted to take him by surprise. As Sheriff Hall approached him he drew a pistol, but before he could use it he was shot from the rear by one of the police. Denton was wanted for selling liquor without a license. He was formerly a Sheffield policeman.

Burned Out Second Time.

Birmingham, Ala., Oct. 5.—Fire shortly before midnight totally destroyed the building and stock of goods of the Tyler Grocery company, at the corner of South Twentieth street and Powell avenue. The loss is about $70,000. The Tyler Grocery company was burned out on March 4 some six weeks ago and the company had just removed to their new quarters.

ONE MAN IS KILLED AND TWO WOUNDED

Tragedy Takes Place in Saloon at Mobile, Alabama.

MURDERER LOCKED UP IN JAIL

No reason is Given for the Crime—The Man Who Committed the Deed Refuses to Talk—All Parties Are Prominent People.

Mobile, Ala., Oct. 5.—Price Baker, aged 28, member of a prominent family, was instantly killed this morning and Hamilton McKean, aged 26, and Joseph Hart, Jr., aged 23, were wounded, the former fatally and the latter seriously.

John Fischer, an engineer on the Seaboard Air Line, with headquarters at Raleigh, N. C., did the shooting in a saloon on Dauphine street, a principal thoroughfare of the city. No reason is assigned but an old feud is supposed to have led to the tragedy.

Fischer comes of a well known Mobile family and only reached here Sunday from Raleigh on a visit.

He is locked up and refuses to talk.

PAT CROW IS CAPTURED.

Wanted by Omaha, Neb., Police for Kidnaping Cudahy's Son.

Butte, Montana, Oct. 5.—Pat Crowe, wanted by the Omaha police for the kidnaping of the son of Millionaire Packer Edward Cudahy, in 1900, was arrested in this city late Tuesday.

Crowe's identification has been made complete through photographs sent to the authorities by the Omaha officers. Crowe acknowledged he was the fugitive, becoming alarmed when he feared the authorities were going to kill him.

Captain of Police W. F. McGrat and Detective Meinerny made the arrest, placing the muzzles of their revolvers against his stomacch as he emerged from a saloon in the tenderloin section of the city. Crowe declared he would return to Omaha without requisition papers.

He cursed bitterly at his arrest, expressing chagrin at his apprehension in a town the size of Butte, when he, as he said, had traveled the world over and evaded capture in all the large cities.

Acquitted of Murder Charge.

Carnesville, Ga, Oct. 5.—The jury in the case of Pinto D. Jordan charged with the murder of Adolphus Starr, another prominent young white man, returned a verdict acquitting the defendant. The crime with which young Jordan was charged occurred on June 6, 1901, in Canon, Ga., when he shot Mr. Starr on the public streets in the court of the town. Jordan was tried at the September term, 1902, of Franklin superior court, before Judge Estes and convicted of involuntary manslaughter. He was sentenced to four years in the penitentiary. The supreme court granted a new trial. The defense made a motion this week when the case was called to continue, but were ruled to trial by Judge Russell.

Minister of Finance Reports.

Copenhagen, Oct. 5.—Minister of Finance Larsen today submitted the budget for 1906-07 to the lower house of parliament. He estimated the revenue at about $31,625,000, and the expenditure at about $26,750,000. Minister Larsen is the first minister of finance to recognize in his budget the international chamber of agriculture started under the auspices of the king of Italy on the initiative of David Lubin, of California. The minister asks for an appropriation to enable Denmark to participate in the establishment of the chamber.

Chaplain Taggart Reports for Duty.

Columbus, O., Oct. 5.—Captain E. F. Taggart, whose divorce case in Worster attracted the attention of the entire country for weeks, arrived at the Columbus barracks and reported for duty. He declined to talk in any way of the divorce proceedings, or of the probable outcome of his stumble.

THROWER & DENNIS MAKE A BIG DEAL

Have Leased 21,000 Acres Timber Land in Levy County.

WILL MAKE NAVAL STORES

Have Secured One of the Best and Most Profitable Tracts in Levy County and Will at Once Open Same and Go Into the Turpentine Business.

Another big naval stores deal has been recorded in Levy county, but this time the parties leasing are residents and business men of Alachua county.

Benj. K. Thrower, Jr., and C. D. Dennis, two progressive young men who feel that the naval stores interests are among the most profitable and important in the State, have succeeded in leasing a tract of 21,000 acres in Levy county, near Bronson, and will at once establish a turpentine farm. Both young men are thoroughly business, and will no doubt make a big success of the venture. Mr. Thrower has been for years a valued employe of the Baird Hardware Company in the capacity of traveling salesman, and no person has become more popular or commanded a better trade in the hardware, naval stores and mill supply line than he. Mr. Dennis is the efficient general mine superintendent of the Dutton Phosphate Company. He is regarded as a young man of exceptional business qualifications, which prompted him to become a partner in the new business which is about to be started. Both gentlemen, however, will retain their respective positions, as they have employed a first-class man to act as manager of the new business.

Friends of Messrs. Thrower and Dennis are congratulating them upon their purchase, as the timber is said to be among the finest for turpentine purposes in Levy county.

CRUSHER AT WORK.

Forty-Two Tons Ready and Other Stone Will be Crushed at Once.

The rock crusher recently purchased by the city has been kept busy for the past two or three days, a quantity of rock having been delivered on the ground from the Rocky Point quarry for street work.

"Chief Engineer Adamson states that the crusher is turning nicely and good progress is being made. "I have had considerable experience in road building," he said, "and I want to frankly say that this line is the best material I have ever seen. Streets built out of good material are bound to wear, and there is no question but that the people of Gainesville have got the right stuff now."

Work on West Liberty street will begin as soon as a sufficient quantity of rock is crushed.

THE YELLOW FEVER.

The Record at Pensacola and New Orleans Quite Encouraging.

Pensacola, October 5.—Up to noon today there were three new cases and no deaths. From noon to 6 p. m. yesterday there were 10 new cases and one death. Total cases to date 190, and 24 deaths. Dr. S. Herron, one of the oldest physicians in the city, was arrested yesterday for not allowing his house to be inspected.

At New Orleans.

New Orleans, Oct. 5.—For the twenty-four hours ending at 6 p. m. yesterday there were only 22 new cases and four deaths. From 6 p. m. yesterday until noon today there were ten cases and two deaths. Total number of cases, 4,006. Total number of deaths, 403.

Rev. W. T. Hundley Accepts.

From The Northampton Times, published at Cape Charles, Va., we glean the following regarding a former well known and highly respected pastor of the First Baptist Church of this city:

"Rev. William T. Hundley, brother of Rev. John W. Hundley of this city, has accepted a call to the pastorate of Cheriton and Eastville Baptist churches. Mr. Hundley will begin work in his new field next Sunday, October 1st. He will conduct service at Eastville in the morning at 11 o'clock and at Cheriton in the afternoon at 3:30. A cordial invitation is extended his very many friends to attend both services."

The many friends of the reverend gentleman in this city extend hearty congratulations to their former pastor and citizen, wishing him many years of health and happiness in his noble work.

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse menstruation, accompanied by unusual pain, from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only. Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my monthly discharge stopped. Shortly after I fell so badly that I submitted to a thorough examination by a physician and was told that I had a tumor on the uterus and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After trying five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my monthlies around once more, and I am entirely well."—Fannie D. Fox, 7 Chestnut Street, Bradford, Pa.

Would Not Turn Over Assets.

Chicago, Oct. 5.—Bankruptcy proceedings against E. I. Rosenfeld, general manager of the Western Life Indemnity insurance company, were today referred by Federal Judge S. H. Bethea, to Referee in Bankruptcy Wenn. Attorney Levinson, for the plaintiff, first told the court that Rosenfeld refused to return any assets over to the receiver. Levinson asked that the receiver be allowed an attorney. The court agreed, stipulating, however, that the attorney should be one heretofore not interested in the proceedings.

Streets Guarded by Troops.

Brunn, Austria, Oct. 5.—Although popular excitement continues, there have been no further conflicts here. All the street in the business quarter are guarded by troops. The Czech merchants have called a meeting for Oct. 7, to inaugurate a boycott of all German merchants. The latter are petitioning the authorities to prohibit the meeting.

Repairing Typhoon Damages.

Washington, Oct. 5.—In order that the damages resulting from the recent typhoon in the Philippine islands may be at once repaired and to prevent suffering among the many people whose houses and property were destroyed by it, the quartermaster general of the army has cabled to Manila that an extra allotment of $50,000 has been made to meet the expenses.

Streets Guarded by Troops.

Washington, Oct. 5.—Captain F. Ryan, royal British navy, has been appointed naval attache to the British embassy here succeeding Captain Dechair, who has gone to sea. Ambassador Durand and Lady Durand will take up their residence here for the winter about the 20th instant.

LIFE ON A WARSHIP.

Why the Men Are Allowed to Indulge in Athletic Sports.

To see a thirteen inch gun loaded and fired is a sight not to be forgotten. The projectile is thirteen inches in diameter, about three feet in length and weighs 1,100 pounds. The powder charge for target practice is 250 pounds. The cost for each shot is about $600. When all is ready on the range the signal siren sounds, there is a blinding flash, a roar like thunder and a jarring shock. Then you hear the whining screech of the shell, for all the world like a fast express rounding a sharp curve. The projectile is visible almost from the time it leaves the gun. You see it rip through the target and strike the water beyond, throwing up a column of liquid many feet high. The shell skips, much like the flat stone "skipper" of our boyhood, and again a column of water shoots up two miles or more farther out, to be repeated time and again. The shell in its flight can be watched without the aid of glasses for eight miles or more in clear weather.

While the life of a sailor, from captain down to apprentice, is an almost continual round of work, some time is found for athletic sports, such as boat racing, football and baseball. The object of this is to give the men recreation and at the same time to foster the spirit of competition. Besides, it makes the men easier to manage. The ship with a strong football or baseball team or the fastest race boat almost invariably has a happy and easily managed crew—a crew that will swear that its officers are the finest men in the world, and likewise the officers swear by such a crew. Some ships have training tables for their athletic teams, the expense usually being defrayed by the officers. The team or boat crew, as the case may be, is petted by the officers and idolized by the crew, and for some time before a hard contest the men are excused from various duties in order that they may give more time to training.

Every battleship and cruiser has its race boat, purchased by contributions from officers and men. The prices paid for these boats is, as a rule, contingent upon their winning certain specified races. The builders are willing to take a chance, knowing that the crew will do its best to win. For a winning boat the price is often as much as $1,000, while for a boat that proves less speedy the builder will accept $500 or less. On the result of a fleet boat race as much as $30,000 has been known to change hands, and large sums are also wagered on baseball and football games. This is, of course, contrary to the letter of the regulations; but the sporting instinct is as strong in the navy as elsewhere—and it is not always possible to hold down the lid.—Leslie's Weekly.

The End of the World.

That the earth will eventually dry up and all living things will die of thirst is the theory of a scientific writer. He says that in both Africa and Asia, and indeed in all the great levels of the world, the water beds are drying up. Many lakes well known during the historical period have entirely disappeared, while others are shrinking rapidly. "Explorations in central Asia have proved that for centuries a zone stretching from the east to the southeast of this part of the czar's dominion has been drying up. Deserts are gradually spreading, and reports show that it is only in the neighborhood of mountains, round whose brows vapors condense and fall, that irrigation can be carried on or life itself can be preserved."

How Wines Are Colored.

"Most people think white grapes make white wine and dark grapes make red wine," said a visitor. "That is a popular error.

"Red wine is made by fermenting grape juice and grape skins together the skins giving the color, and white wine is made by fermenting grape juice alone.

"The juice of white and of dark grapes doesn't differ in hue. In each sort of grape the juice is almost colorless. Like the weakest lemonade.

"Champagne, one of the dearest of the white wines, is made of a grape so dark as to be nearly black. But the juice of that nearly black grape is quite as pale as the juice of the blondest white grape."—Minneapolis Journal.

L. H. BARKER, General Superintendent. J. F. HILL, Agent.

AN IMPORTANT DEAL.

The Mintz-Fuller Company Has Purchased Stock of J. M. Endel.

The Mintz-Fuller Company have purchased the stock of J. M. Endel, clothier and furnisher, and will continue the business uninterrupted at the same old stand, West Main street, west side of square.

Mr. Endel is one of the oldest and most widely known merchants in the county. He has always enjoyed a fine trade because he endeavored to give full value in every article. His wares have always come up to the standard, and it is to be regretted that he proposes to leave Gainesville, not for business reasons, but owing to sad misfortunes of death in his family.

The new firm proposes to carry the same line, and will advertise later. The firm is composed of the Phifer Brothers and W. O. Morris. Mr. Morris will be manager of the concern. He is a thoroughly competent business man, and will no doubt make a big success of the new firm.

"I dislike very much to leave Gainesville, where I have lived and prospered for twenty years," remarked Mr. Endel yesterday, "but since I am alone I feel like seeking a new territory, where I may feel more at ease. I think a great deal of the people of Gainesville, and will ever hold them in my heart as my friends."

Mr. Endel expects to go in a few days to New York, and it may be that he will later engage in business in Newark, N. J.

They Were Doubly Bound.

Justice R. W. Small of Alachua is an unassuming kind of a fellow, but he is original in the extreme and never fails to spring a good point or a good joke when the opportunity presents.

Justice Small is not only justice of the peace, but he is weighted down with the cares and responsibilities of postmaster at Hague. A few days ago he had occasion to perform a marriage ceremony and at the conclusion took occasion for these remarks:

"John, you have taken Laura to be your lawful wedded wife; to protect her and stand by her to a finish. If another man comes and tries to steal her away, in darkness or in daylight, you are supposed to be Johnny-on-the-spot and make a hero out of yourself by protecting her and saving her from the clutches of a thirsty villain. I want you to treat that woman right, and you are doubly compelled to do so, for you have been married in the post-office, and that means that if you don't do right by the woman you have at this cracker-box altar taken and promised to protect, you will be dealt with, not only by the State authorities, but you will be sentenced by the United States Government to spend six months or a year in Lake City."

"I'll sho' treat dat 'oman right," replied the groom, " 'cause I don't want to be sent up by de United States 'thorities."

And so the ceremony ended.

In Mayor's Court.

Jonas Nelson of the colored race slapped his sweetheart in the face. Julia Randolph was the girl who put Jonas in the whirl by reporting him to the cop. She declared he was no more than so much slop. Since he had said, with so much strife, that he would end Miss Julia's life. Nelson, who is a lowly fellow, came near making his sweetheart bellow from the pain he caused her. That's all the ragtime prose, but Mayor Thomas, who has always been with the female sex in sympathy, entertained that Nelson slapped Julia twice, and fined him $2.50 a slap, which ran the bill up to five dollars. Nelson paid, but admitted that it was right dear slapping. "I've struck many a woman for less dan dat, and never got befoh' de mayor eder," he said, as he pulled the money from a hole pocket and paid the fine.

Sam Watts was arraigned for reckless driving, but inasmuch as he was trying to "make a train" he was released upon payment of the costs.

TO WEAK WOMEN

Of Gainesville and Vicinity, We Make the Following Proposition:

"There are hundreds of women in this vicinity who are dragging themselves through life in pain and misery, without vitality, strength or health," said Mr. Johnson. "They get no happiness out of life and are just in a condition to be attacked by almost any disease. They need a vitality-making and strength-creating tonic.

"Now at our expense we want to ask every such woman in Gainesville to try our cod liver oil preparation, Vinol, which contains in a highly concentrated form all of the medicinal elements of cod liver oil, but no oil or grease. It is delicious to take, creates a healthy appetite, makes pure, rich, red blood, and gives strength and vigor to every organ of the body better than any medicine we have ever sold in our store, and when a woman is in poor condition it makes life worth living. When we say 'at our expense,' we mean that if the medicine you buy from us and pay for does not benefit you, we will refund every cent paid us for it."

"Miss Mary A. Woodward says: 'I think Vinol is the best remedy in the world for a weak, tired, worn-out system. I was just in that condition when I commenced to take Vinol. It gave me new life and energy. I feel well, strong and better than I have for years.'

"We can only ask Gainesville women to try Vinol on our guarantee." W. M. Johnson, Druggist.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Mr. Downs Married.

A recent issue of The Hartford (Connecticut) Times contains the announcement of the marriage of John Downs of Chicopee Falls, Mass., and Miss Maud Divine of Hartford. Mr Downs formerly resided in this city and has many friends here who will probably learn of his marriage with agreeable surprise. He was a young man of excellent habits and fine business attainments, and won respect and esteem from the better element of the city.

Old Age and Matrimony.

When he was considered quite an old man James, Lord Balcarres, went to stay with old Lady Keith. There were a number of young ladies in the house and, before he arrived, Lady Keith said to them: "Now, there is this old gentleman coming to stay, and I particularly wish that you should all endeavor to make yourselves as pleasant to him as you can." They all agreed to do so, but a Miss Dalrymple said: "You may all do what you like, but I'll bet you anything that you please that I'll make the old gentleman like me best of us all." And so she did. She made him perfectly devoted to her all the time he was there, yet when he asked her to marry him she laughed in his face. Lord Balcarres was extremely constant, but when he went away he made a will leaving everything he could upon Miss Dalrymple. Somehow she heard of this, and said: "Then, after all, he must really care for me, and I will marry him." And she did. He was fifty-eight then, but they had ten children.

Wise Men.

It need hardly be pointed out, says the author of "Fifty Years in Fleet Street," that to be elected a member of parliament does not necessarily imply intellectual superiority. Shortly after the Burmese war a young civilian, home on leave, happened to mention Burma.

"Ah, yes, Burma," said an M. P. with whom he was sitting at table. "I had a nephew who was in Burma, only he used to call it Bermuda."

On another occasion, in the month of March, some one said to Mr. Livesey: "This is a cruel east wind."

"Yes," was the wonder by witty reply. "I expect it will be kinder before it is over."

This was repeated by the author of the book quoted to a responsible member of parliament, who observed gravely: "I fancy he's right. I have known it blow till Easter and longer yet."

Sheriff Brown of Jacksonville has been elected sheriff of Duval county by Governor Broward. Mr. Brown had been appointed for several days.

The new coal grant has about gone the limit. The finest opera we have seen are those living views made by the Biograph Company, taken from actual scenes from nature and hand-colored.

The banana, which has been banished from our midst for some time, once more graces the fruit stands of the city. No fruit would be missed as much as the banana, unless it would be the kiss of honor.

They are trying to prove that a man might commit no crime in supporting Duke Smith for governor of Georgia. They will have their hands full if there is no nomination made within a year before the election.

The insurance men did not place any confidence in Judge Parker. Why you couldn't tell the field against Roosevelt after he had made that famous denial, which many honest men believed to be the truth.

If you are in any business that deserves publicity, an advertisement in the Industrial Edition of The Daily Sun will bring it before upwards of 20,000 people. You can't find anything better. Write at once to H. H. McCreary, manager, for rates.

No one from Gainesville will go to the State Fair and say any length of time but what they will long for a cool drink of Bonifacay spring water. All others will be able to have the water shipped there and served cool, to an advertisement for the pure water to be had in this city.

Just at the present time it would not be safe for Cuba to make any bluff toward the United States, as our gallant Second Regiment, in camp at Jacksonville, is in good fighting trim. The drilling on the streets of the Gainesville Guards, on the evening of holidays, caused considerable improvement. The business men should give the boys substantial encouragement.

If politics were interesting, the whole State of Florida would be drunk all the time.

CONFEDERATE VETERANS.

During the State Fair, to be held in Tampa on November 10th to 30th, there will be many gatherings and special days. But among the many meetings during this time, there will be none to create more interest than a reunion of the Third Brigade, Second Regiment, Florida Confederate Veterans, shortly to be called by Gen. W. L. Jewell of Orlando, commander of the brigade. The date will be announced later.

This noted brigade held its first reunion at the South Florida Fair last year, and the reunion proved to be a great success in every feature. The old vets will be entertained on a much larger and better scale this year, and every Confederate veteran in Florida should attend.

Efforts are also being made for having a reunion of the old Indian fighters, in which a number of survivors are interesting themselves. The ravages of time have taken away the vast majority of these old veterans, but it is expected that a goodly number will answer the call, and excellent entertainment will be arranged in their honor.

Now Tampa is mad. The Tribune says that "President Roosevelt and party will visit Jacksonville. It will be remembered that President Roosevelt is resting rest and tranquility and desires to visit a quiet place—hence he will not prolong his tour to this city."

Captain Oberlin M. Carter, one of the elite persons of Greene and Gaynor, says his dead father-in-law told an untruth. That is drawing it mild and shows considerable respect for his dead father-in-law, coming as it does from such a cheerful liar.

People in the North are beginning to lay their plans for escaping the cold winter, and it is time those who wish to entertain such visitors should put up their sign. This city will have many visitors, and it is hoped something will be done to make their stay pleasant. They want to do something besides eat and sleep, and some effort should be made to have a place where they could go for a day's pleasure. If there was only a building at Newnans Lake, and a way of getting to it, a good business could be done. There is no finer location for a resort than along the shores of this lake.

When every State of the cotton belt has its quota of mills for the manufacture of the long staple into all kinds of cloth for which it is adapted, the law of supply and demand will regulate the price of the product. The long staple cotton grown here need have no fear of foreign intervention, for it has no superior in the world.

The Iroquois that will be on exhibition at the State Fair should be introduced into Florida. Their chief dies to dog meat, and a tribe of 75 or 100 of them might live high in Gainesville for a year or more and not have to make a change of diet. And they never would be missed, except at night when people want to sleep.

Tennessee prisoners are getting a reputation that is a surprise to many. A few days ago a prison guard was knocked senseless by a blast while at work with a number of prisoners. Instead of escaping, as they could have done, they carried the guard back to the work house.

The property values of Taylor county have trebled in five years, according to the last census reports.

SOFTNESS OF SEALSKIN.

Is Stealed by Human Hair Where Resilient to Moisture.

Sealskin is admired the world over for its softness and gleekness; and yet the human hair is equally as soft and glossy when healthy; and the natural cause of all hair trouble is dandruff, which is caused by a parasitic germ that eats the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Shooting the scalp won't cure dandruff, but the dandruff germ. There are many worthless imitations of Herpicide, Beware of them. Sold by leading druggists. Will Await Calhoun's Report.

Paris, Oct. 5.—The authorities do not expect definite action relative to Venezuela until the receipt at Washington of the report of former Judge W. J. Calhoun, who went to Venezuela on a special mission for the government of the United States, which had not arrived when the last conference between ambassador Jusserand and the officials at Washington occurred. In the meantime the matter remains stationary, Venezuela not having withdrawn her action toward the French charge d'Affairs M. Taigny, in refusing to treat with the French government through him.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

New York, Oct. 5.—The detectives and the police have satisfied themselves that Harry Leonard, the boy who did the National City bank out of $359,000 worth of securities by means of a forged check, had no accomplices. They announced yesterday that all the evidence to convict young Leonard had been obtained and that the case was closed.

In court yesterday Leonard seemed eager to talk concerning himself, but the police would not let him. The reporters and officers surrounded him successfully and he got launched in the story before the police shut him up.

"I have been making a study of banking and banking methods," he began, "ever since I've been down in the street. A month ago I wrote an article for a Wall street publication showing up the carelessnes of the messenger service down there. I liked the article so well that I decided to demonstrate the thing and make a name for my self."

At this point he was interrupted by the officers.

ADDRESS TO FRESHMAN CLASS.

President of Harvard Advises Hard Course for Students to Pursue.

Cambridge, Mass., Oct. 5.—President Charles W. Eliot, of Harvard, addressed the incoming freshman class at the faculty reception yesterday evening. He said in part:

"The foundation of all durable satisfaction in life is that each man be a sane, wholesome, vigorous animal. This means that drunkenness, uncleanness and dirt of all kinds must be avoided.

"But this is not enough. It is the intellectual life that gives the educated man the real satisfaction that endures. The cultivation of vigorous, strong, manful work each day is found to furnish one of the greatest and most lasting satisfactions that come in life. Don't take three minutes to do what might just as well be done in two minutes. Don't take 4 years at college to do what might be done just as well in three years.

"The third great source of satisfaction is a decent reputation. In order to secure this, be a man of honor. Act toward all women as though you were going to marry some pure woman inside of a month. Be honest to all, and more than this, be generous, especially to those less poor than yourself."

STEAMER GOES ON ROCKS.

Crews of 50 Rescued by Members of Life Saving Station.

Norfolk, Va., Oct. 5.—The Italian steamer Citta Di Palermo, from Norfolk for New Orleans in ballast, was stranded on Diamond Shoals, 1 mile south of Cape Hatteras Life Saving station, last night during thick weather.

The crew of thirty men was landed at Hatteras today by the Cape Hatteras and Creeds Hill Life Saving stations, and are being cared for at the latter.

The ship is lying in about 12 feet of water, and is apparently in good condition. There is no water in her hold. The sea is smooth and the wind is blowing from the north.

Reports received from the scene of the wreck say that if quick assistance is rendered the ship may, in all probability, be saved though with much.

The crew have left at once for the mouth of the creek.

Boat Destroyed by Flames.

Marion, O., Oct. 5.—An unknown steamboat is reported to have been cremated, another perhaps fatally burned, and a third seriously injured as a result of a fire that destroyed the steamer of A. L. Pettingill here early today. The men were here attending a carnival and were sleeping in the cabin. Owen Kelly, of Niles, O., was rescued after he had been badly burned. A boy named Wyands, of Bracketville, jumped from the second story of the burning building and received a broken leg. It is believed that a man whose name has not been learned, may probably cremated.

Argument Against New Trial.

Chicago, Oct. 5.—The argument against the contention of the government against the petition for a new trial for Charles L. Chadwick now under sentence of ten years in the Ohio penitentiary for conspiracy to wreck the Commercial National bank, was concluded today by Assistant Attorney S. [illegible] before the United States court of appeals in this city. Arguments are expected to conclude with tomorrow.

Cures Worse Cough.

J. E. Casey, 101 North Main street, Cherry, Kan., writes: "Every fall it was my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Chamberlain's Cough Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, one or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Ellis.

New Business Cost Too Much.

Binghamton, N. Y., Oct. 4.—Assemblyman John T. Rogers, of the insurance investigating committee, in speaking of the insurance developments yesterday, said: "The coming week will be an interesting one, as in my opinion, it will develop the true cause of the insurance scandal, which is the fact that the large insuance companies have been paying in great deal more for new business than it is worth. The developments will not be of a sensational, but rather of a statistical nature, but they will go a long way toward solving the problem. It is the purpose of the committee to investigate every insurance company in the state, large and small, and close the hearing by January 15th."

Suicided with Dose of Aconite.

Detroit, Mich., Oct. 4.—Robert G. Cameron, of Euclid Heights, Cleveland, said to have had charge of an automobile garage there, committed suicide in Washington park today by drinking a quantity of aconite. Letters found on his person indicate that Cameron had quarreled with his sweetheart. One of the letters said that because of his sweetheart's perfidy he had taken to drink. Another note said that he hoped God's curse would fall on those who had parted him and his sweetheart.

While the river was abnormally low for nearly a month the operation of manufacturing industries in this city was practically uninterrupted.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." AGAINST GOVERNMENT CONTROL.

President Hill, of Great Northern Railroad Delivers Address.

Portland, Ore., Oct. 4.—President J. J. Hill, of the Great Northern railroad, was the principal speaker at a banquet tendered by the Lewis and Clark exposition last night to Mr. Hill and President Howard Elliott, of the Northern Pacific railroad. President Hill said:

"Notwithstanding the average rate paid by the people of the United States is only about 40 per cent of that of Russia, we have a great many people who are preaching a new doctrine and that is the regulation of railway rates by federal authority.

"It has been announced in an official manner that there has been no reduction of rates in the United States for 36 years; that tariffs have been reduced at times, but that whenever a tariff was reduced the classification was given another turn of the wheel and advanced as at least to offset the reduction in the tariff.

"The man who made that statement did not tell the truth. The reduction in the August rate per ton per mile in 26 years on the Great Northern railway aggregates $667,000,000. This has been in the reduction that the people have gotten on one railroad.

"I am not afraid that any federal regulation will ever get down deep to touch us where we live, because long before they do, the country will be strewn with railroad corpses. They would bankrupt two-thirds of the mileage in the United States."

Upheaval in Financial Circles.

Chicago, Oct. 4.—A new upheaval financially took place today as a result of the sensational litigation over the affairs of the Western Life Insurance company. The assets of E. L. Rosenfeld, general manager of the Western Life were ordered placed in the hands of a receiver. The action was taken in the federal court by Judge S. H. Bethea, who named as the received Edwin G. Day. Rosenfeld was charged in a bill filed in court yesterday with being "a trafficker in and a wrecker of life insurance companies for his own personal profit, and with an utter disregard for the rights of policy holders."

Estimated Loss $5,000,000.

Manila, Oct. 4.—The estimated loss in the hemp-growing districts from the recent typhoon is $5,000,000 in gold. The hemp in warehouses ready for shipment is also a total loss. The plantations are impaired to such an extent that it will take a year to get them in condition again. Reports now coming in from the south indicate a greater loss of life and property than was first estimated. On Tycao island the beach is strewn with dead bodies, among them those of some Americans, in such a condition as to be unrecognizable.

Horrible Heroism.

One of the Revolution's gunners was standing by his gun as the ship shouted abreast of De Grasse's flagship. The gunner was all ready, just going to fire, when a shot came in at the port and took his leg off at the knee. As quick as thought the man pulled off his neckcloth and tied his leg above the stump. The next instant he seized his shot off limb and thrust it into the muzzle of the gun, which went off two seconds later. "My foot," shouted the man exultantly, "is the first to board the Ville de Paris."—Frazier's "Famous Fighters."

A Famous Beauty.

Mme. de Rambouet had features so perfect that her contemporaries said she was worthy to sit as a model for a Greek goddess. The flesh of her face closely resembled alabaster, and yet she was not pale and did not give the impression of being in delicate health. Her beauty attracted universal attention to her, no matter where she went, and even in old age she retained most of her good looks.

Simplex.

Simplex—They are going to be married? Why, I didn't know they were engaged. Duplex—Well, you see, there are so many engagements broken nowadays that they thought they wouldn't get engaged—just simply married.—London Answers.

Odors Usually Worsen Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexion by cleansing the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe, and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. Hollingsworth & Co.

A GREAT EDUCATIONAL MOVEMENT!

A Magnificent Library Worth $500 Offered Free of Cost!

Something SUN Readers Should Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in G. W. HYDE'S Window Revealed in the following

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 30 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school, club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchants through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their names and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.
